PROFILE

Backend engineer with 9 years of experience building high-traffic APIs in Python and Go. Strong background in distributed systems, observability and cloud infrastructure.

WORK EXPERIENCE

Senior Software Engineer - Stripe

Apr 2020 - Present

• Designed a payments reconciliation service processing 4M events per day with Kafka and PostgreSQL.
• Cut p99 latency by 38% by introducing Redis caching and query tuning.
• Mentored 6 engineers and led the migration to Kubernetes on AWS.

Software Engineer - Shopify

Jul 2016 - Mar 2020

• Built REST and gRPC services in Go for the merchant analytics platform.
• Automated deployments with Terraform and GitHub Actions, reducing release time from 2 hours to 15 minutes.

EDUCATION

B.S. Computer Science - University of Texas at Austin (2016)

CERTIFICATIONS

• AWS Certified Solutions Architect - Associate
• Certified Kubernetes Administrator (CKA)
